

SPRAY KING®

WATER TANKS

TANKS FOR ARTICULATED TRUCKS

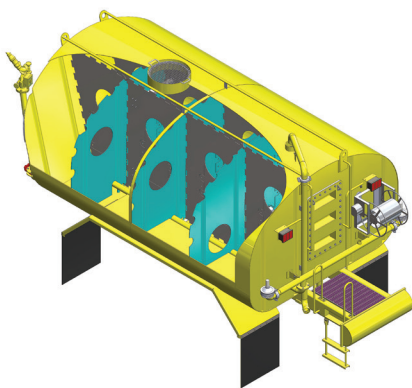

SK5AT • SK6AT • SK8AT • SK9AT

DESIGNED TO BE SAFE & EASY TO MAINTAIN

Tanks available in 5k, 6k, 8k and 9k gallon capacities

WHAT SETS IT APART

- **Tortuga-shaped tank** provides a lower center of gravity and a more stable driving experience
- **A tank door “first”** in the industry – back of tank location allows easy access for safety and fast retrieval
- **Steps integrated into the tank door** serve as ladder for access to top of tank to help decrease damage and to ensure a safe working environment
- **Removable baffle sections** provide access to entire interior of tank for ease, comfort and safety
- **Tank interior coated** with articulated DTM (direct to metal) material for superior corrosion resistance

PRECISE TAILORING & RIGOROUS STANDARDS

- An internal corrugated baffle system reduces surge effect – increasing stability and tank structural integrity
- Touchscreen system controls spray head operation, provides visibility to tank water level, and is programmed to safely shut down pump system when water level is low
- Large screened intake cage to prevent blockage and allow longer run time between scheduled maintenance intervals
- Optional vinyl branding allows you to promote your company
- Equipped with patented cavitation prevention

HOW REPUTATIONS ARE FORGED

Ever since Benjamin Holt produced his first horse-drawn harvester in the late 1800's, HOLT Manufacturing has been building the products that move industries, and you, forward.
